At Eaton we value our relationships with our authorized Channel Partners. When you display your Eaton Authorized identification with pride and care, both businesses profit.

Access the Graphics Resource Tool via the Branding Resources section of MyEaton secure or visit es.eaton.com/graphicsresource. Here, you can download individual marks or create custom collection marks for your authorized product categories.

Use and display of Eaton Authorized Partner Relationship identifiers is intended solely and exclusively for Eaton's legally authorized Channel Partners, representatives or resellers who have executed agreements with Eaton or its affiliates.

In accordance with the terms of executed agreements the use of these identifiers may not be transferred or assigned.

The right to display these identifiers is limited to the promotion of Eaton's products and/or Eaton's authorized services only.

Eaton's granting of the use of its Authorized Partner Relationship identifiers is limited to the proper use of Eaton's trademarks and the terms of the distributor, rep or reseller agreements.

In the event of improper usage or termination or expiration of your agreement with Eaton, you must immediately cease and desist from all use of these identifiers on any marketing communication materials, including but not limited to: websites, advertising and promotional items, catalogues, tradeshow booths, signs, displays and vehicles.

Overview

Channel Partners enjoy a special relationship with Eaton as valued business partners. These standards explain and demonstrate how distributors, resellers, service partners and others may properly and effectively display their relationship with Eaton in their brand and marketing communications, advertising, promotions and signage. These standards include all Channel Partner relationships including:

- Distributors
- Resellers
- Manufacturing Representatives
- Power Advantage Partners
- Service Providers
- Systems Integrators
- Panelbuilders
- Authorized Online Distributors

The most important purpose of these standards is to protect and advance the reputations of Eaton and our Channel Partners. By adhering to these standards, a strong and consistent visual message is communicated.

Customers recognize and trust you. Your graphic identity is an important part of that recognition. The same is true for us. Eaton has a strong visual identity and reputation that inspires confidence and respect around the world. These standards explain how to link our global reputation with your reputation to benefit both our companies.

1

Eaton Channel Partner identifier basics

This section provides important information about Eaton Authorized Relationship identifiers and how to use them.

Eaton Authorized Relationship identifiers overview

Communicating a Channel Partner relationship can occur in three areas:

- On Eaton-produced materials imprinted with a Channel Partner logo
- On Channel Partner-produced stationery, vehicles and signage
- On Channel Partner-produced marketing materials featuring Eaton products or services

The examples, at right, summarize how and where to show a Channel Partner relationship.

Program components and where to use them

Channel Partner logo
Channel Partners may add their logo to Eaton-produced marketing materials.

See page **17–19** for examples

Your Logo

Authorized marks
A Channel Partner can represent their authorized relationship with Eaton through the authorized mark, authorized product series mark or an authorized product category mark.

Display the Eaton Authorized mark on Channel Partner-produced stationery, vehicles and signage.

See page **21–24** for examples

Custom collection marks can also be created to show multiple series/ product categories.

Eaton Authorized mark

Eaton Authorized product series mark

Eaton Authorized product category mark

Use on Channel Partner-produced materials including:

Business cards
Letterhead
Vehicles
Store signage

The Eaton Logomark
Use the Eaton Logomark on Channel Partner-produced marketing materials that promote Eaton products, either exclusively or together with products from other manufacturers.

Product series signatures
If you need to indicate specific 'product series' in a line card or website, you may display one, or several, series signatures on Channel Partner-produced marketing materials to promote these categories of products either exclusively or together with the products or logos from other manufacturers.

See page **26–32** for examples

B-Line series

Use the Eaton Logomark or product series signatures on Channel Partner materials such as:

Websites
Online advertising
Print advertising
Print literature and collateral
Digital presentations
In-store and tradeshow display
Promotional merchandise
Promotional event banners

Product series designations

Product series designations connect Eaton's legacy names to the Eaton brand. Product series are not brands or Eaton organizations. They simply describe a category or set of products.

Use series signatures on marketing materials, and websites. In copy, typeset the series designation.

Some product series are used globally, while others are specific to certain regions. Please contact Brand@Eaton.com if you have questions about use.

It is Eaton's brand strategy to build its competencies under one brand. As brands are acquired, it is necessary to continue over time to transfer equity to Eaton.

The product series designations aim to:

- Continue to build the bridge between legacy/acquired names and the Eaton brand
- Maintain any positive equity and associate it strongly with the Eaton brand
- Afford Eaton global trademark protections

Designated product series

B-Line series

Bussmann series

Cooper Power series

Crouse-Hinds series

Holec series

MEM series

Moeller series

Powerware series

Tripp Lite series

Authorized marks and Collection marks

These marks are designed to communicate authorized relationships on your

- stationery
- vehicles
- signage

Use individual marks to communicate an authorized relationship with one specific series or product category.

Use collection marks to show the range of Eaton products that you are authorized to sell.

Access the Graphics Resource Tool via the Branding Resources section of MyEaton secure or visit es.eaton.com/graphicsresource. Here, you can download individual marks or create custom collection marks for your authorized product categories.

Using the Authorized mark

Clear Area

A Clear Area should be maintained on all sides of an Eaton Authorized mark or Collection mark by maintaining a proper "X" spacing. As shown in the layouts at right, the "X" spacing is determined by the height of the blue bar in the mark.

Size

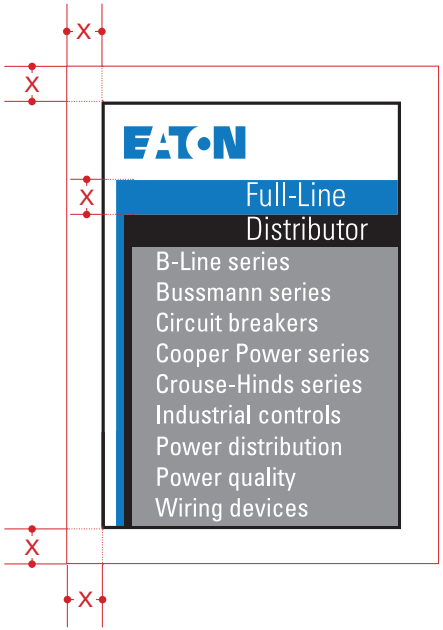

The Eaton Authorized marks and Collection marks may not be reduced to a size where the height of the blue bar is less than 8 points in height.

Color

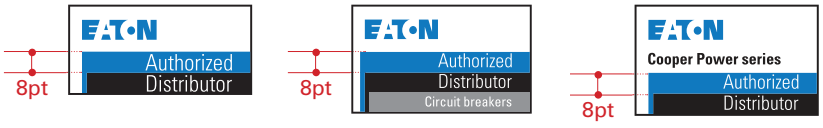

Authorized marks must be displayed in a two-color version (Eaton Blue and black) .

Apply the Clear Area to an Authorized mark or Collection mark using "X" as shown here.

Minimum size

Color

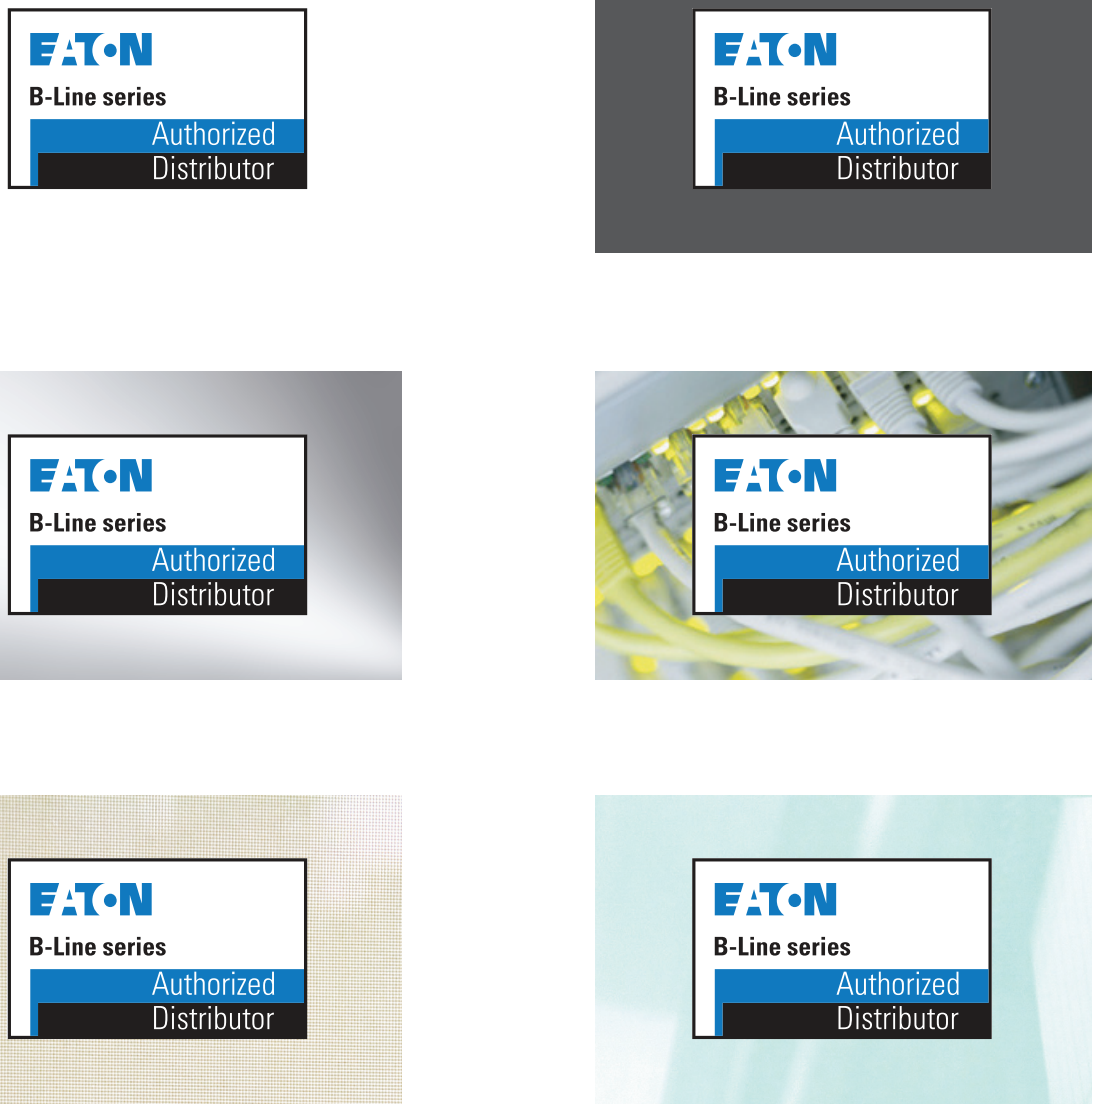

Eaton Blue and black on white

Backgrounds

The preferred usage of an Eaton Authorized mark or Collection mark is against a white background.

When necessary, the mark may be displayed against a colored, photographic, textured or patterned background.

Whenever the mark is displayed, it should appear as a white rectangle bordered with a black rule. This is true even on black or very dark backgrounds. Backgrounds may abut the rule but may never appear inside the rule.

The Eaton Authorized Relationship in text

When typesetting the Authorized Relationship in headlines and text, make sure that the wording matches the wording of the mark. Never change or transpose words or add to the language of the Authorized Relationship mark.

Product series in text:

Use this style when describing Eaton's relationship to its product series:

- Eaton's B-Line series
- Eaton's Bussmann series
- Eaton's Cooper Power Systems series
- Eaton's Crouse-Hinds series

A noun must follow use of the product series, i.e. Eaton's Bussmann series fuses. The only exception is on line cards or in website listings where it is not feasible. The series are representative of product categories and are not companies, brands or divisions.

The Eaton logomark and product series signatures should not used in-line with text as part of a sentence or headline. Graphics should always appear separate from text.

Examples of correct use of the Authorized Partner Relationship in text

We are an Eaton Authorized Distributor.

Our company is the only Eaton Authorized Distributor in the region.

Our company is your local Eaton Authorized Distributor.

One or several product categories

Our company is an Authorized Distributor for Eaton's B-Line series lighting and Crouse-Hinds series products.

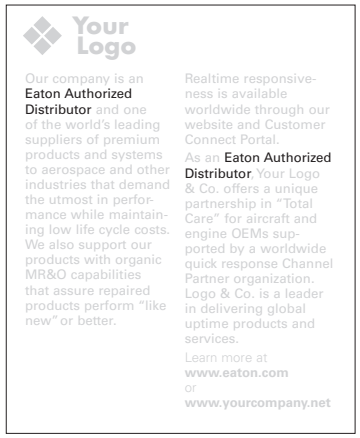

We are an Authorized Distributor of Eaton's Bussmann series and Cooper Power series solutions.

We are an Authorized Distributor for Eaton's Bussmann series products.

We are an Authorized Distributor for Eaton products, including Bussmann series fuses.

We are an Authorized Distributor for Eaton's notification products.

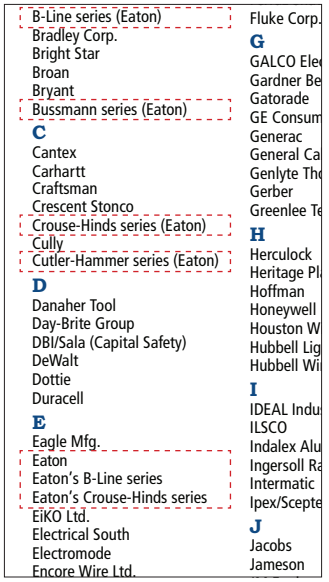

We are the region's largest Authorized Distributor for Eaton's fire systems solutions.

The Eaton Logomark and product series signatures

Use the Eaton Logomark or product series signatures on

- Channel Partner websites
- online advertising
- print advertising
- print literature and collateral
- digital presentations
- in-store and tradeshow displays
- promotional merchandise.

The Eaton Logomark may be used to represent all of your Eaton offerings.

The product series signatures may be used by Channel Partners who sell a specific product category when use of the Eaton brand alone is not sufficient.

Note: In the instance where Eaton products are used in a product manufactured by the channel partner, please contact Brand@Eaton.com for further direction on brand usage.

Access the Graphics Resource Tool via the Branding Resources section of MyEaton secure or visit es.eaton.com/graphicsresource. Here, you can download individual marks or create custom collection marks for your authorized product categories.

Cooper Power series

Tripp Lite series

Bussmann series

Crouse-Hinds series

Using the Eaton Logomark

Use the information at the right for guidance when using the Eaton Logomark. The Logomark must not be redrawn or recreated.
The correct reproduction of the logomark can only be achieved by using the official master artwork files.

Clear Area

Maintain a Clear Area around the Logomark—a zone where no other type, art or other design element may appear. The Clear Area is a 1/2X margin surrounding the Logomark with "X" represented by the cap height of the letters in the name Eaton.

Size

The Logomark may be enlarged to any size required.

The Logomark may not be reduced to less than 7 points high. For smaller sizes, set "EATON" in Univers 55, all caps.

Color

The Logomark should appear in Eaton Blue on a white background. When that is not possible, the Logomark may be used in solid black or in white (reversed) on another color background.

The Eaton Logomark Clear Area

X = height of "EATON"

Minimum sizes

EATON

In sizes smaller than 7 points, set the name "EATON" in Univers 55, all caps.

Auxiliary color usage

Black on white

White (reversed)

Using the Eaton Logomark in black or white

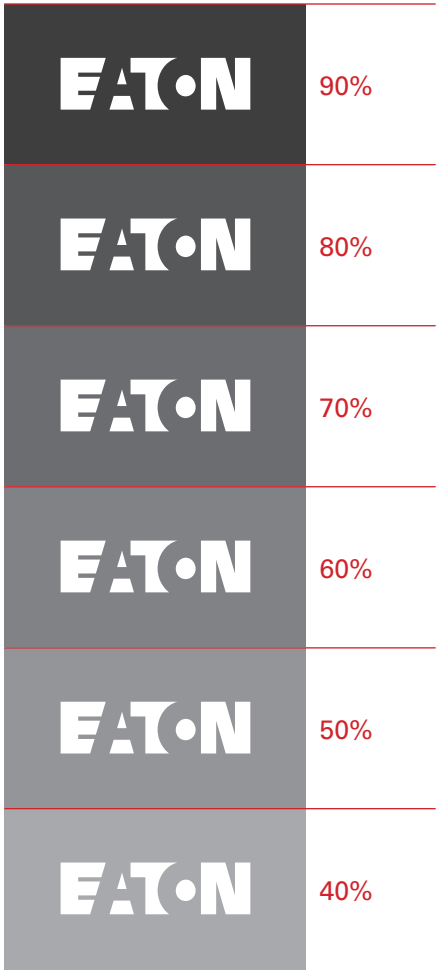

When applying the Eaton Logomark to a background, the gray scale value of the background must be determined in order to select the correct Logomark, either black or white. Backgrounds include printed or applied color and imagery.

The Eaton Logomark must always appear in white on backgrounds that fall above 40% on the gray scale, and must always appear in black on backgrounds that fall below 40% on the gray scale.

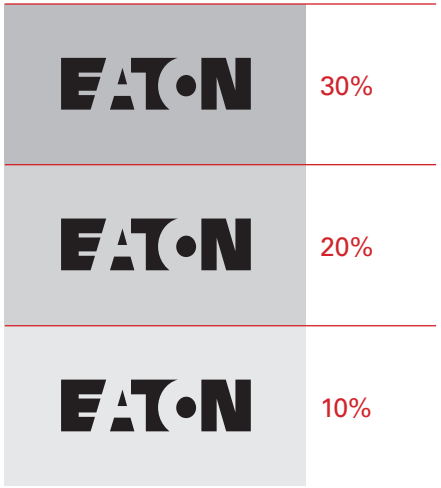

Compare a background color's relative gray value to the gray scale chart at right when determining black or white use of the Logomark. If necessary, refer to Pantone (PMS) S325-6 as an accurate gray value benchmark for a 40% gray.

Gray scale comparison chart

Use a white Logomark for backgrounds with a relative gray scale value above 40%.

Use a black Logomark for backgrounds with a relative gray scale value below 40%.

Product series signature

Use the information at the right when using any product series signature or product series signature collection mark.

Throughout this document, anytime only one product series signature is used as an example to illustrate standards, the same standards apply to all other product series signatures.

Clear Area

The Clear Area is a zone where no other type, art or other design element may appear. Maintain a Clear Area around all product series signatures using the "X" measure.

The "X" measure can be calculated by using the cap height of the product name line.

Size

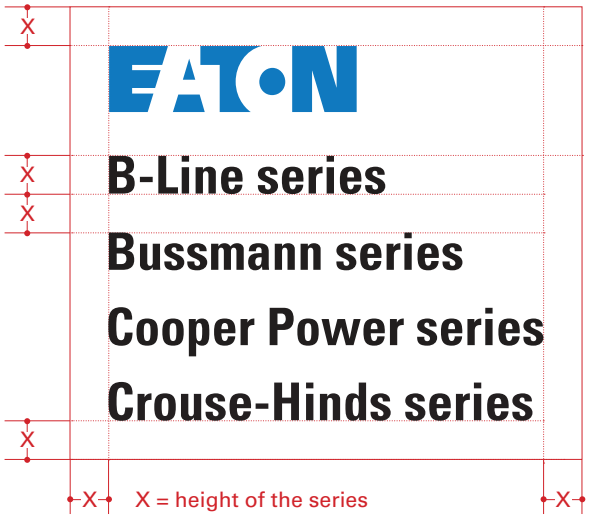

The product series signature or product series signature collection mark may be enlarged to any size required.

The Eaton Logomark in the signature may not be reduced to less than 12 points high.

Product series signature

Product series signature collection mark

Minimum sizes

Primary color usage

Eaton Blue and black

Black

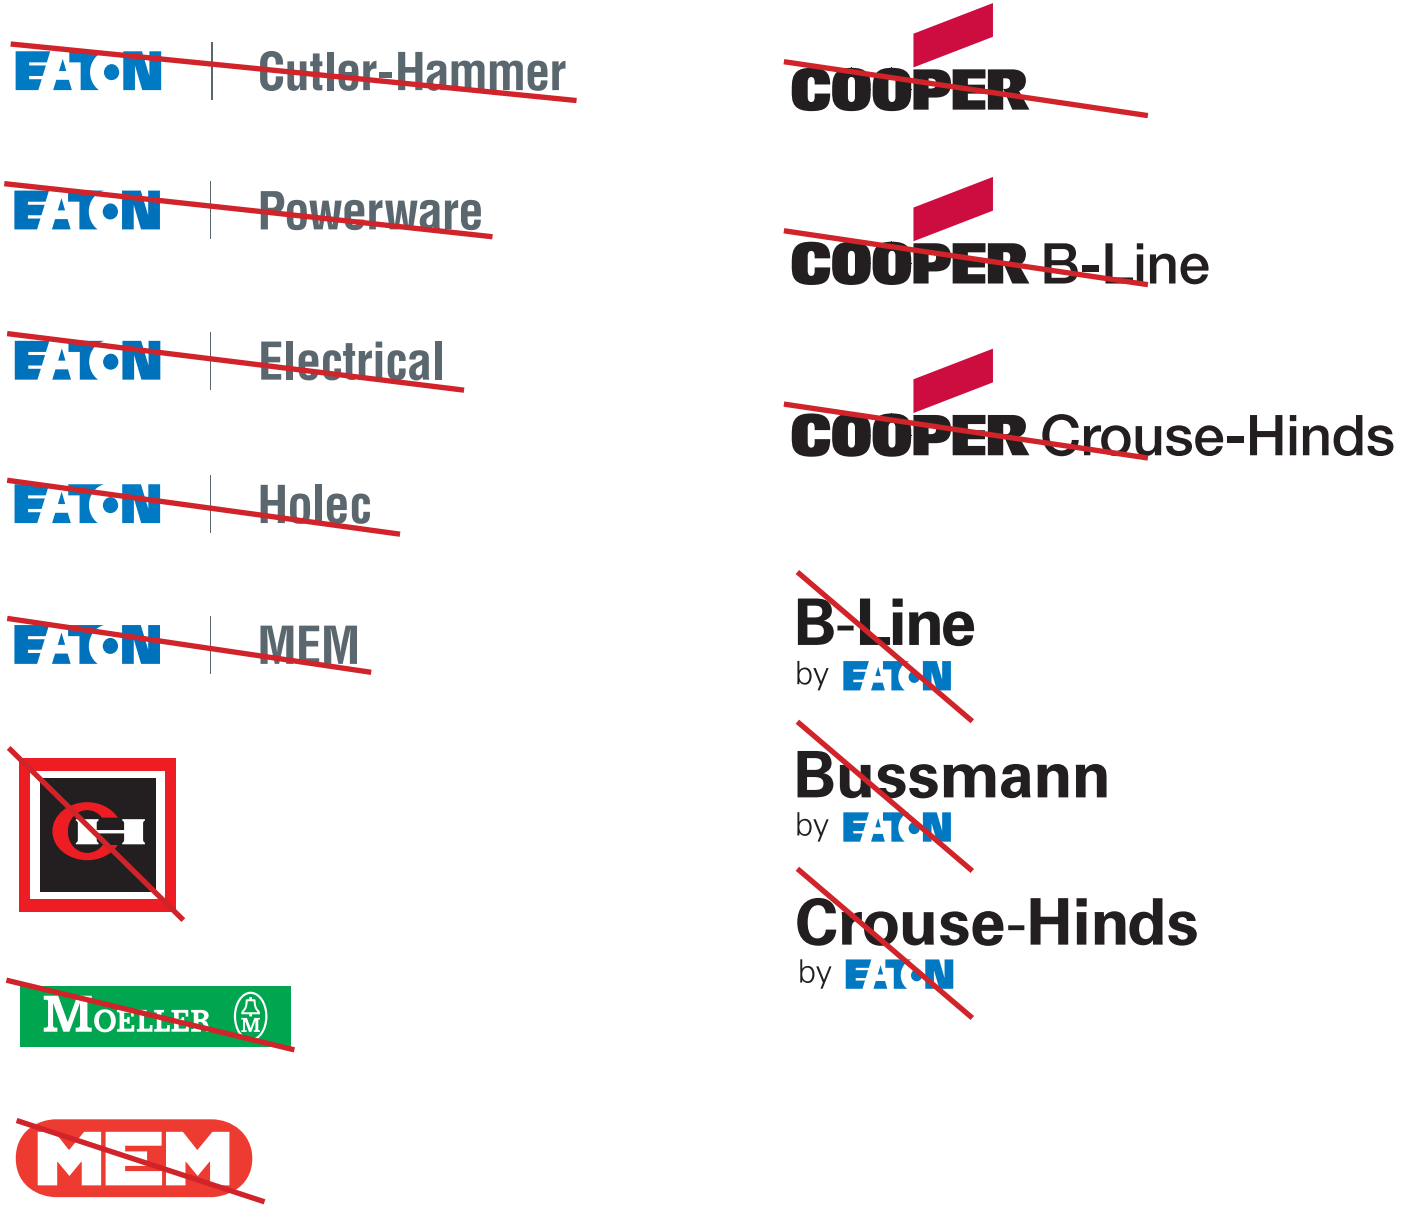

Legacy logos

Use of legacy/acquired logos is no longer permitted. Please discontinue use of all such artwork.

In addition, please remove any of these logos from your signage and marketing communications and work with your sales team and Eaton's channel marketing team to plan for disposal of promotional merchandise or displays that use unapproved marks.

This is not an exhaustive list of all the legacy logos that are no longer permitted for widespread use. Discontinue use of any logo that is not approved.

Examples of incorrect legacy and acquired logos

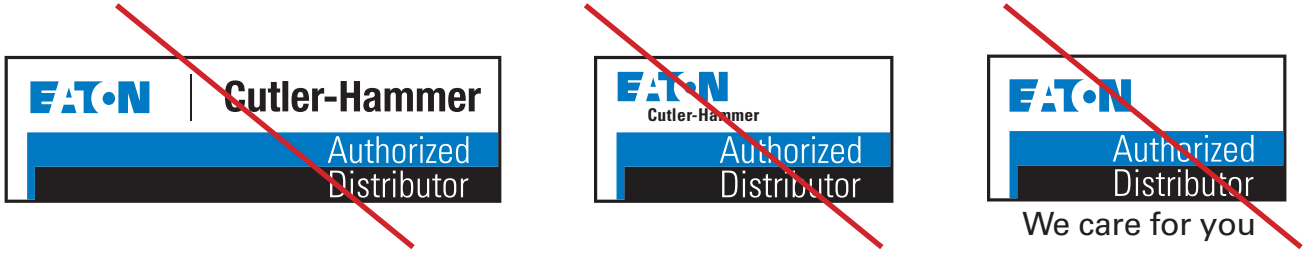

Incorrect usage

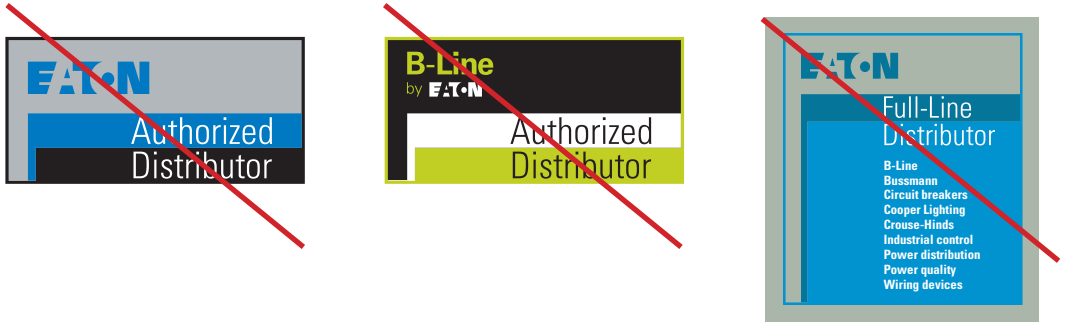

Eaton Authorized marks and Collection marks must not be redrawn or recreated from separate graphic or type elements. Their correct reproduction can be achieved only by using the official master artwork files.

- Never alter the color or content of the artwork. Do not change fonts, place colors in the background or add drop shadows.
- Never distort or redraw the artwork. Never scale, skew, shear, rotate or otherwise change the proportions of the mark.
- Never place artwork within the black border or violate the Clear Area of the mark. Cartoons or illustrations may not be used with the mark.

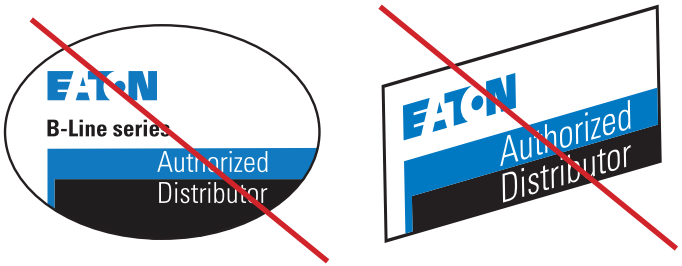

Never add unauthorized brands or tag lines

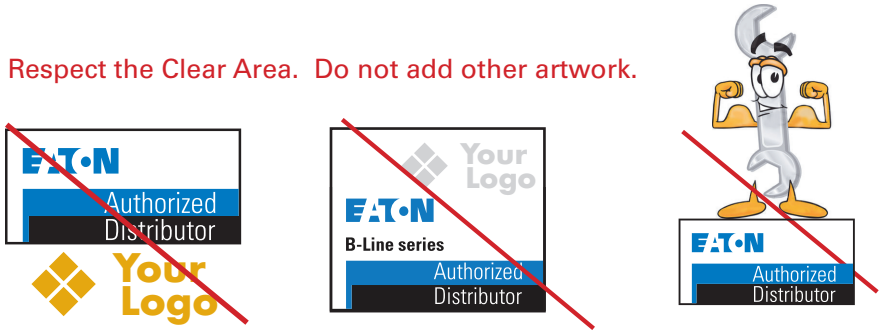

Never alter colors or fonts

Never distort or redraw

Respect the Clear Area. Do not add other artwork.

This section explains how to add a Channel Partner logo to Eaton-produced marketing materials.

2

Co-branding Eaton materials with a Channel Partner's logo

Adding Channel Partner logos to Eaton literature

The Eaton Brand Signature is the visual expression of our brand. It consists of two components—the Eaton Logomark and the competency line "Powering Business Worldwide."

Eaton literature may be co-branded with the Channel Partner's logo. The Channel Partner logo should visually appear to be about 80% of the size of the Brand Signature.

The Channel Partner logo should be located at the lower right corner of the Eaton material. It should be placed 2p2 from the right trim edge and base aligned with the competency line "Powering Business Worldwide" in the Eaton Brand Signature.

Optionally, Channel Partners may also place their logo on the outside back cover of Eaton-produced literature. The Channel Partner logo should be placed 2p2 from the lower right trim edge, and base aligned with the competency line "Powering Business Worldwide" in the Eaton Brand Signature.

Channel Partner logo applied to Eaton literature cover

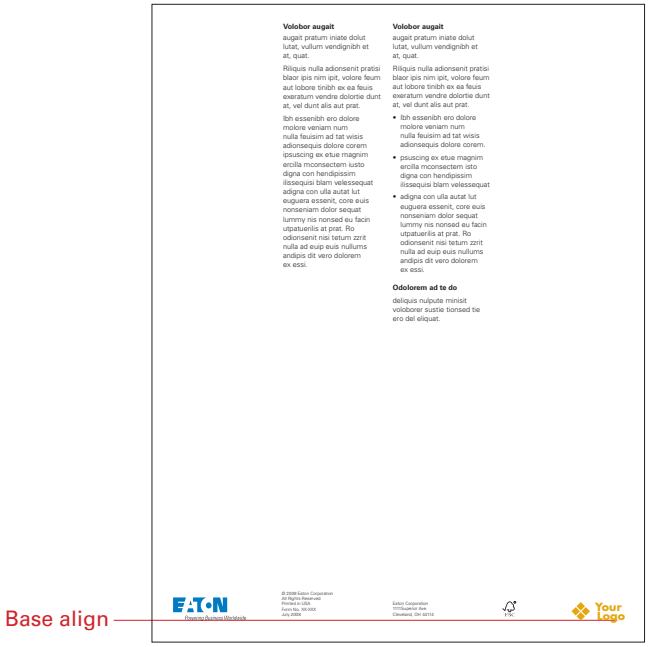

Eaton Brand Signature

Channel Partner logo should be sized to appear approximately 80% the size of the Eaton Brand Signature.

Back cover usage

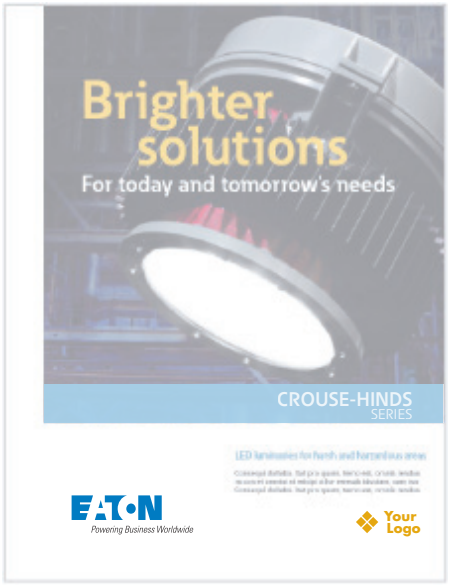

Adding Channel Partner logos to Eaton literature

Eaton literature has a distinctive Eaton Brand look and style. At right are examples with a Channel Partner logo applied. Please note that the Channel Partner logo should be sized to appear to be approximately 80% of the size of the Eaton Brand Signature featured in the lower lefthand corner of the material.

3

Identifying Eaton Authorized relationships on Channel Partner stationery, vehicles and signage

This section explains how to display the Authorized marks and the Collection marks on Channel Partner materials.

- Business cards
- Letterhead
- Vehicles
- Store Signage

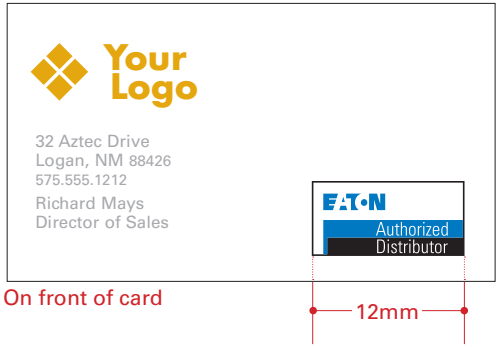

Examples of stationery

Channel Partners may use Authorized marks and Collection marks on business cards, letterheads, envelopes and other stationery.

Always respect the Clear Area and the 12mm (0.5″) minimum width of the mark.

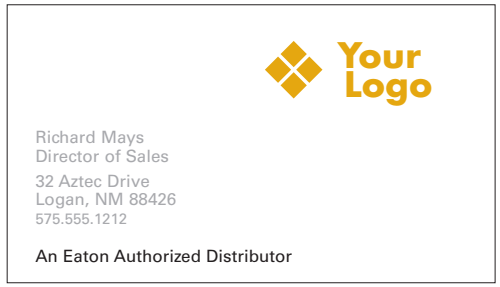

The Eaton Authorized Partner Relationship may also be typeset.

Business card with individual Eaton Authorized mark

On front of card

Business card with typeset Authorized Partner Relationship

On front of card

Letterhead with individual Eaton Authorized mark

Always respect the Clear Area around the mark

Examples of stationery

Use the Eaton Logomark or product series signatures on business cards, letterhead, envelopes when displayed with brands of other manufacturers in a line card-type fashion.

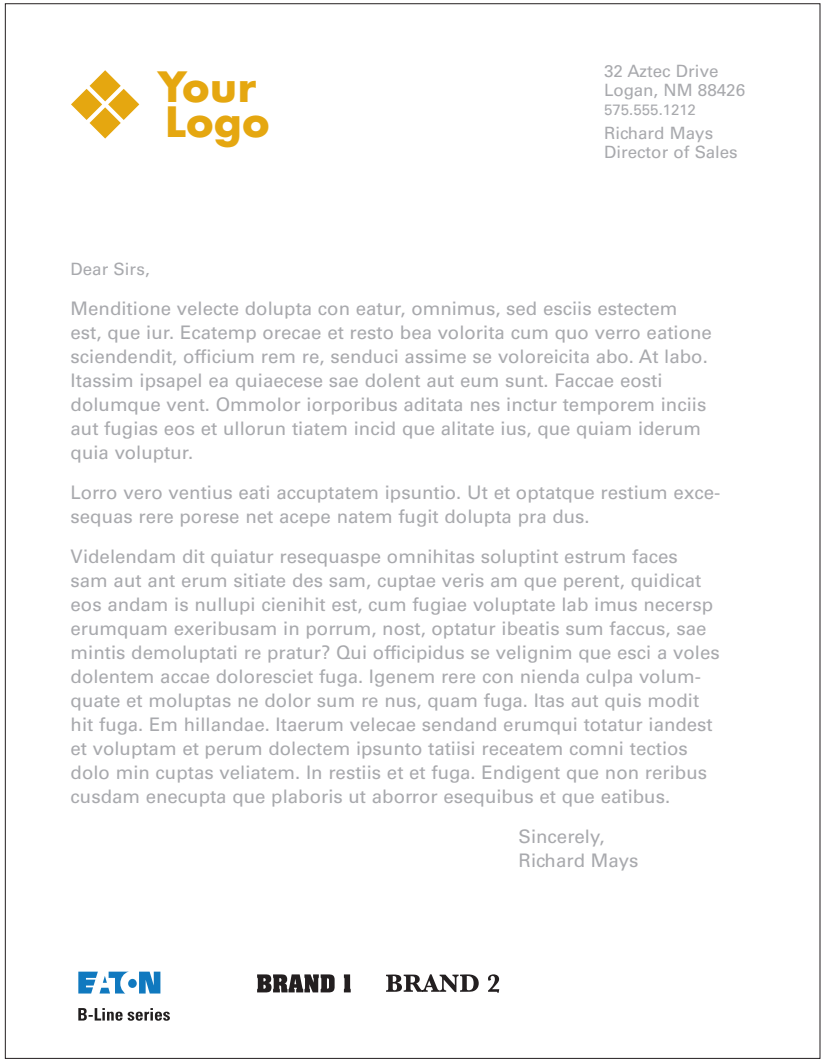

When displayed with the brands of other manufacturers, the Eaton Logomark should have the same visual weight as the other brands listed.

Business card with Eaton Logomark

On front of card

Letterhead with product series signature

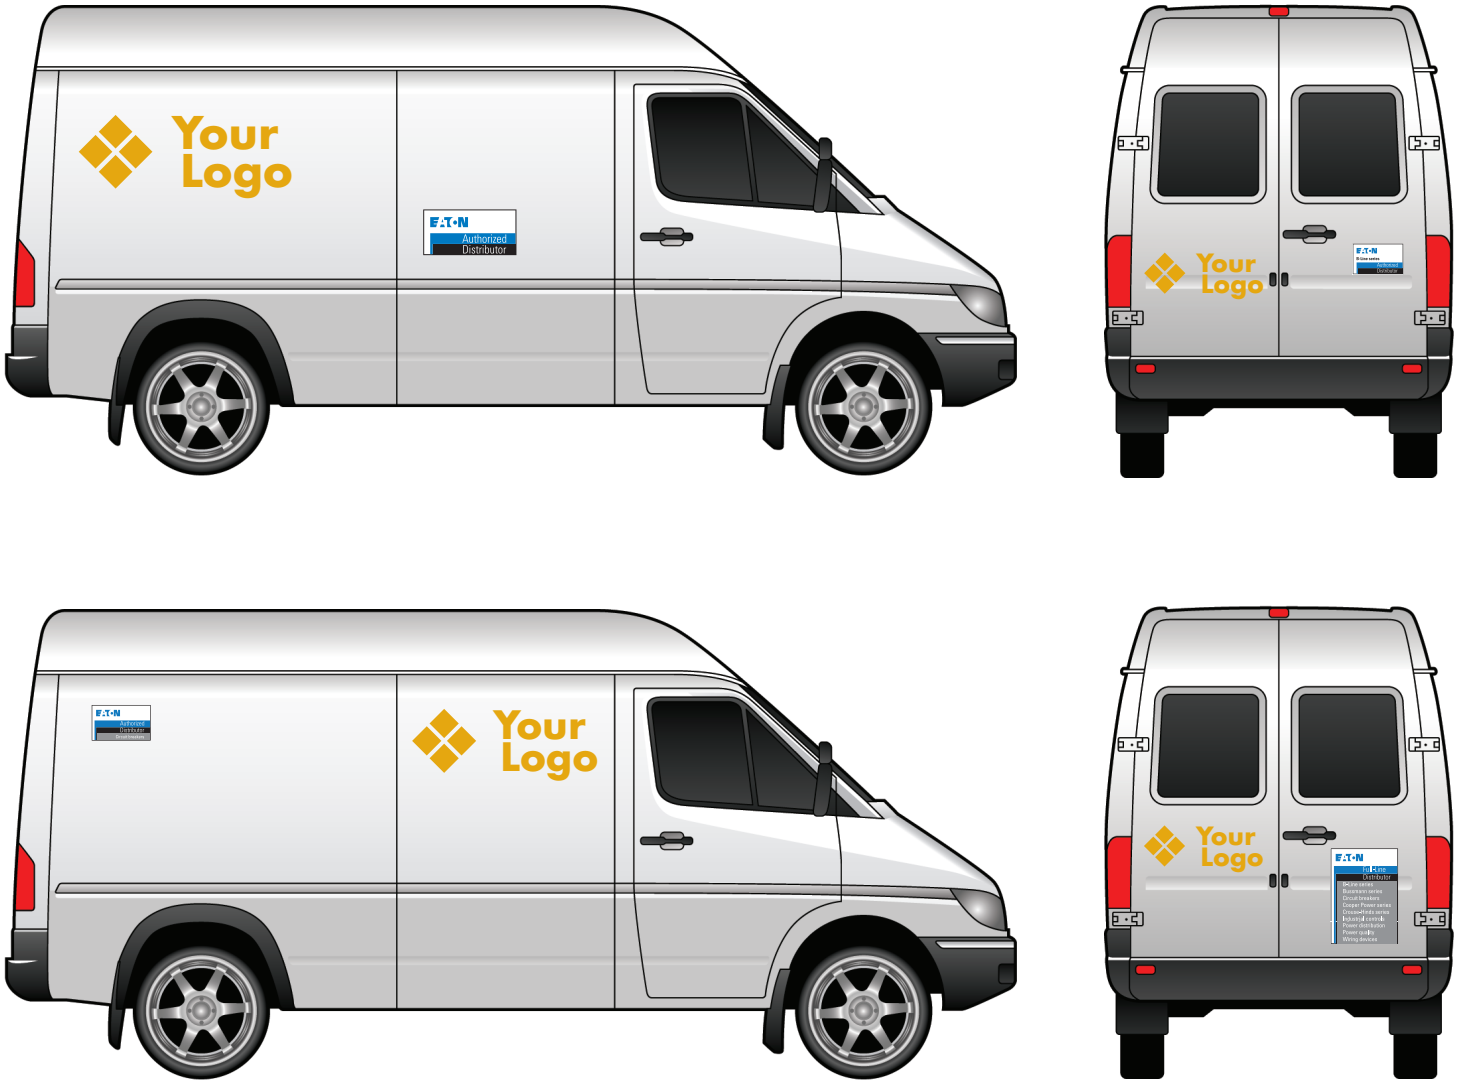

Examples of vehicles

Individual marks and Collection marks may be used on vehicles. Channel Partner vehicles should not be represented as Eaton vehicles. Place the mark where it can be seen clearly: tailgates, side panels and cab doors are ideal.

- Marks may be applied to the body of the vehicle or adhered as decals to windows.
- Window decals have a minimum display size of 3″ and a maximum of 6″.

Online marketing

Websites

You may place the Eaton Logomark wherever it best suits your website design.

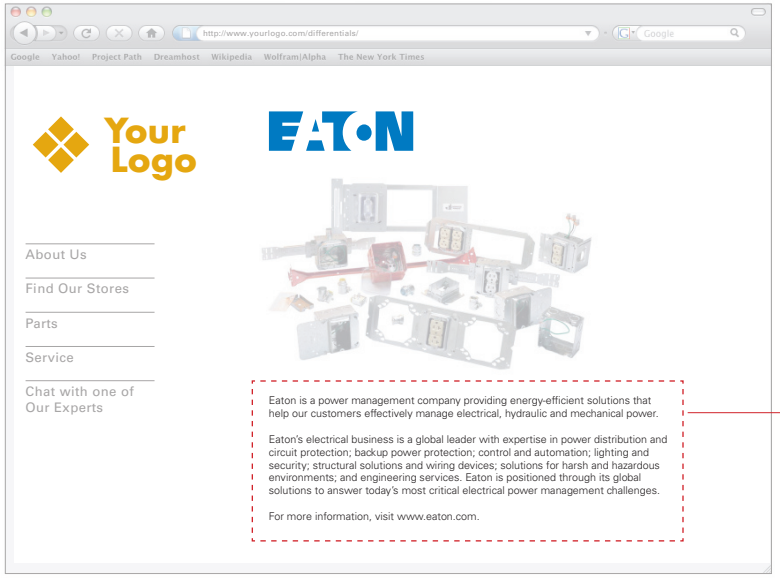

The Eaton Logomark or product series signature should have the same visual weight as other brands listed.

When Eaton products are displayed, the Eaton Logomark or product series signature should accompany them.

The company should always be represented as Eaton.

When the website lists a product series, it is okay to have a page dedicated to that product series using the product series signature, as long as the content indicates Eaton as the company and brand and the series in relation to the category of products, i.e. Eaton's Crouse-Hinds series explosionproof solutions.

Company section of a Channel Partner website

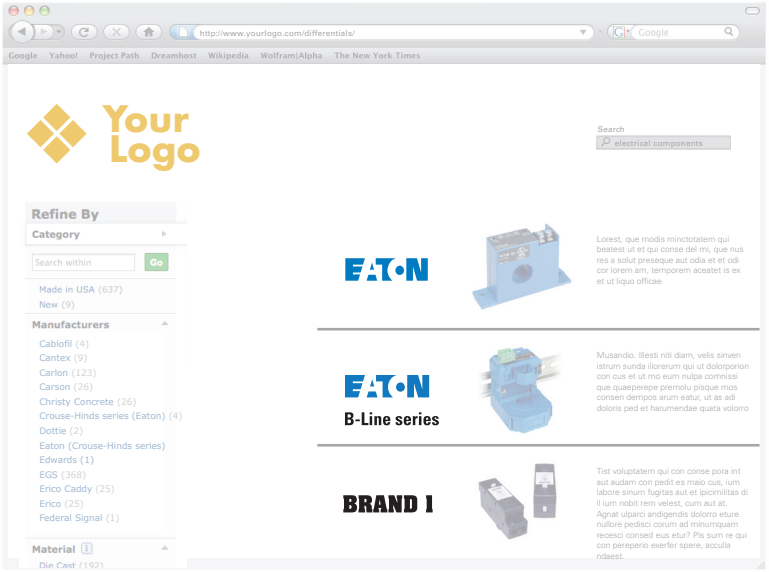

Standard copy to use to describe Eaton

Eaton is a power management company providing energy-efficient solutions that help our customers effectively manage electrical, hydraulic and mechanical power.

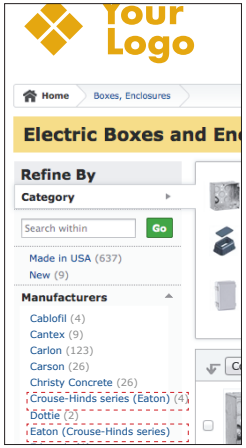

Eaton's electrical business is a global leader with expertise in power distribution and circuit protection; backup power protection; control and automation; lighting and security; structural solutions and wiring devices; solutions for harsh and hazardous environments; and engineering services. Eaton is positioned through its global solutions to answer today's most critical electrical power management challenges.

For more information, visit Eaton.com.

Tabletop display featuring Eaton or “by Eaton” products together with those of other brands

In-store and tradeshow display

For promotional event banners, the Eaton Logomark should represent company sponsorship. To showcase all the product categories the Channel Partner sells, an Authorized Distributor collection mark may be used.

Promotional event banner

Examples of promotional merchandise

Channel Partner-branded promotional merchandise may feature the Eaton Logomark. Baseball caps, polo shirts, t-shirts, pens, tote bags, mugs and umbrellas are just a few items that may be used to remind customers of an Eaton Authorized relationship.

The Authorized relationship may also be typeset.

Embroidered cap

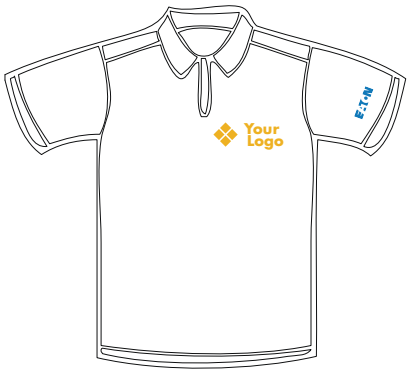

Coffee mugs (front and back)

Pens

Polo shirt with optional placements on either arm or breast pocket

T-shirt front

T-shirt back

For use by approved contractors.

Authorized Contractor mark

Contractors who have an established relationship with Eaton will be provided with a digital image file of the Eaton Authorized Contractor Mark by the Eaton contact who authorizes the relationship. Contractors may use the Eaton Authorized Contractor Mark on their:

- Website
- Stationary/Collateral
- Digital Marketing Content (i.e. banner ads, eNewsletters, etc.)

What defines an established relationship with Eaton (Electrical Sector)?

Contractors must have an established relationship with Eaton to use any form of Eaton branding on their website or in marketing materials. Established relationships are defined by:

- Active membership within Eaton's Certified Contractor Network (ECCN) program
- Tier 3 or Tier 4 contractor status in writing

For contractors who do not meet the established relationship guidelines above, the local Eaton Regional Channel Director or National Account Director may approve your use of this mark. For questions related to approval for contractors without an established relationship with Eaton, **contact ChannelMarketing@Eaton.com.**

Using the Eaton Authorized Contractor mark

Clear Area

A clear area should be maintained on all sides of an Eaton Authorized Contractor Mark by maintaining a proper "X" spacing. As shown in the layouts at right, the "X" spacing is determined by the height of the blue bar in the mark.

Usage

The Eaton Authorized Contractor Mark can be used in place of the standard Eaton Logomark on websites, collateral, and/or digital marketing content.

Color

The Eaton Authorized Contractor Mark must be displayed in a three-color version (Eaton blue and black, black and reversed out white). The preferred usage is against a white background, but when necessary, the mark may be displayed against a colored, photographic, textured, or patterned background as long as the text is still visible.

Apply the Clear Area to an Authorized mark or Collection mark using "X" as shown here.

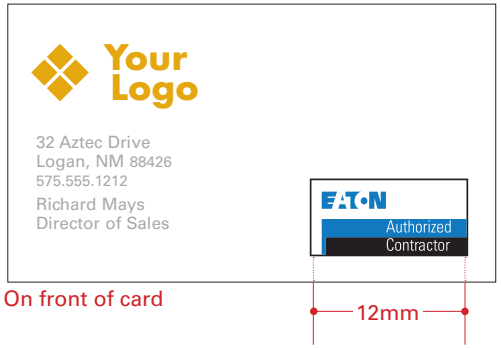

Minimum size

For use by approved contractors.
